DUKANE

ITP65A

65" Interactive Touch Panel

The Dukane ITP65A interactive display with full 1920 x 1080 HD resolution is a high impact tool that encourages interaction and collaboration in the classroom. The mulit-point touchscreen is simple and intuitive and works with any 3rd party software application. Included software allows for annotation, saving and sharing of information. The low-glare surface and brilliant colors create a truly impressive display that will change the way you view interactivity.

Multi-touch and gesture recognition make interactivity simple and intuitive. Included software allows for annotation, saving and sharing information.

Features

- 65" diagonal touch interactive LCD display
- High definition (1920 x 1080) HD resolution
- Low-glare surface for crisp, clear images in any light
- Multi-touch capability and gesture recognition
- Included software to display, annotate, store and share
- Compatible with all 3rd party software apps
- Two built-in 15W speakers
