

## PRG Precision Gear Projector Mount

For Multimedia Projectors up to 50 lb

### NEW!

Peerless' PRG Precision Gear Projector Mount is simplifying the way image alignment is done. The patent-pending precision gear design allows exact tilt and roll image positioning by either simply turning two adjustment knobs with a Phillips screw driver, or use the tool-less option by extending the knobs to adjust by hand. Just set the precision gear to the desired position to secure it in place – it will hold its position even during projector maintenance. With Peerless' PRG Precision Gear Projector Mount, just set it and forget it. No more adjustment screws. No more micro adjustments. No more hassles.

■ Achieve pin-point image alignment with the unique adjustment knobs. Activate and control the precision gear by simply turning the adjustment knobs with a screwdriver or extend them to do it all by hand.

■ The exclusive horizontal wrench access slots mean it takes fewer steps to install the projector. Just slide an open-ended wrench into the slot to simultaneously make the final swivel adjustment and secure the mount into position.

■ The exclusive patent-pending precision gear reduces installation time and makes the mount easier than ever to align. It takes only seconds to set the project the way you want it and the gear mechanism ensures that the image will not misalign if bumped or during projector maintenance.

■ Projector maintenance is effortless with the exclusive quick-release aluminum design. Just release the thumbscrew and the projector smoothly slides in and out of the mount. No tools required.

### Model Numbers

PRG-UNV	Black mount with Spider® Universal Adapter
PRG-UNV-S	Silver mount with Spider® Universal Adapter
PRG-UNV-W	White mount with Spider® Universal Adapter
PRG-1	Black mount (PAP model adapter plate required)
PRG-1S	Silver mount (PAP model adapter plate required)
PRG-1W	White mount (PAP model adapter plate required)

### Product Specifications

- Patent-pending precision gear provides accurate projector image alignment
- Two adjustment knobs control projector image alignment
- Horizontal wrench access slots make flush mounting installations fast and easy
- Pre-assembled design reduces installation time
- Quick-release mechanism to easily service projector
- Cable management allows cables to be routed through projector mount out of sight
- Security hardware provided for theft deterrence

Tilt:	±20°
Roll:	±10°
Swivel:	360° when mounted on extension column ±15° when flush mounted on ceiling

5.7"-11.9" x 3.6"-5.7" x 5.7"-11.9" (14.4-30.2 x 9.1-14.4 x 14.4-30.2 cm)

50 lb (22.6 kg)

2.9 lb (1.3 kg)

Scratch-resistant fused epoxy

Black, silver or white

Ceiling Kits (CMJ models, ACC570, ACC571, ACC912)

Anti-Vibration Mount (ACC840/845)

Extension Columns (EXT & ADJ models)

Cord Management Adapter (ACC800/850)

Side-to-Side Adjuster (ACC830)

Wall Mount Arm (PWA14)

Extension Column Cord Wrap (ACC852(S)(W), ACC856(W))

Stability Kit (ACC050)

Patent pending
